

# Sustainability Statement

---

## Knowle CE Primary Academy

**Psalm 24:1:** "The earth is the Lord's, and everything in it, the world, and all who live in it".

When considering sustainability, we are mindful that God has absolute ownership over all aspects of His creation. As humans, we are aware that we are stewards entrusted with the responsibility of looking after God's world. Our Academy's vision is 'Growing in God's Love; Flourishing Together', which underpins all aspects of school life, including raising our children's awareness regarding sustainability. We are committed to caring for and protecting God's creation and ensuring it is looked after for ourselves and future generations.

We strive to be more sustainable in our everyday lives, sharing with others the importance of this and ensuring we flourish in education through our school environment. We act responsibly, considering the wider implications of our actions and see how these have a positive impact on the world.

Children and adults are educated in the importance of sustainability, through the curriculum, and engage with finding solutions to our world's greatest challenges. This enables our future generations to be better equipped to manage the challenges that lie ahead for our planet.

At Knowle CE Primary Academy, we provide a nurturing environment for all children and adults to grow in mind, body and spirit, enabling everyone to fulfil their potential. Individuals are celebrated for their unique gifts and flourish together through living out our school values, as we make a positive impact on each other, our local community and the wider world. As a result, children are well prepared for a future in which they will bear lasting fruit and make the world a better place.
